Are you tired of playing defense?

We fought tooth and nail in 2017 to keep from **losing** core environmental protections that millions of people like

you worked so hard to secure through your comments, letters, phone calls.

But your fellow members are proving that we can do more than fend off Trump's attacks—we can keep moving forward on climate despite the powerful opposition we face.

Will you stand with 5,720 of your fellow members who have already had their gift to our Year End Campaign matched \$2-for-\$1 by making your first online gift to EDF today?

Give \$25 and it becomes \$75...give \$100 and it becomes \$300... your gift of \$500 could even become \$1,500!

We're playing a lot of defense in Washington and in the courts—and have won some important battles, like when a District Court ordered EPA Administrator Pruitt to implement Obama-era methane pollution standards that he'd sought to delay and rescind.

But to see where your support made the biggest difference in 2017, look outside of Washington:

- EDF staff and members built a vast coalition of Democrats, Republicans, and business leaders came together in California to **extend mandatory caps on carbon pollution** to 2030.
- In North Carolina, our local office secured bipartisan support for the Competitive Energy Solutions Act, which will more than **double installed renewable energy** in just five years.
- EDF staff and volunteer activists in Illinois organized to win a landmark bill to **cut the state's power-sector carbon pollution** by 56% by 2030.
- Walmart consulted with EDF experts to launch *Project Gigaton*, a pledge to **remove a billion tons of emissions** from their global supply chain by 2030.
- EDF Climate Corps trained and embedded a record 108

follows this summer to **slash emissions at dozens of organizations** as diverse as Under Armour, Tesla Motors, Dartmouth College, the Mayo Clinic, and the city of Rochester.

State by state...city by city...business by business...everyday citizens like you are powering a grassroots clean energy revolution.

Your Year-End gift will give us the resources to deploy teams of experienced and knowledgeable staff to cities, states, and businesses across the country to slash pollution as fast as we can.

Millions of Americans are going on the offense to protect our one and only home. Can we count on you?

Thank you for your steadfast support,

Emily Stevenson
Manager, Online Membership

Donate today

P.S. Now through December 31, your gift will unlock \$2 with every \$1 you give. Already, over 5,720 EDF members have contributed a combined \$677,419, unlocking over \$2,031,000 in matching funds. **Please help us claim the rest before it's too late.**
